PROFESSIONAL SUMMARY

Computer Science undergraduate targeting software developer and backend engineering internships, with hands-on experience in Python, Java, JavaScript, Node.js, Express.js, MongoDB, Supabase, debugging, and AI-assisted workflows. Contributed to software R&D in an EDA environment and currently deliver quality-controlled AI-assisted data workflows in a contract role. Strong foundation in backend development, databases, problem solving, Git/GitHub, and technical documentation.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, HTML, CSS **Backend:** Node.js, Express.js **Databases:** MongoDB, Supabase
Developer Tools: Git, GitHub, Visual Studio Code, PyCharm **Core Skills:** Backend Development, Web Development, Database Systems, Debugging, Software R&D, AI-Assisted Workflows, Quality Assurance, Technical Documentation

EXPERIENCE

AI-Assisted Transcription & Data Quality Freelancer (Contract) | Synvera Services Pvt. Ltd. | Remote Sep 2026 - Present

- Use AI-assisted processing workflows to produce structured multilingual text data with standardized speaker labeling, timestamping, and client-defined formatting.
- Perform source-to-output quality assurance, identifying and correcting AI-generated errors to improve accuracy, consistency, and data integrity.
- Manage recurring production files independently, combining AI tooling, manual validation, documentation standards, and deadline-driven delivery.

Software Intern | Cadence Design Systems | Noida, India Jun 2026 - Jul 2026

- Contributed to software development and R&D activities supporting electronic design automation (EDA) solutions in a product engineering environment.
- Analyzed and debugged software issues, supported resolution efforts, and gained experience with application stability, reliability, and engineering workflows.

Design and Proposal Engineer | Optasia Foundation | Bareilly, India Jun 2025 - Jul 2025

- Created technical design proposals, researched implementation approaches, and collaborated on project specifications to translate requirements into practical solutions.

EDUCATION

Bachelor of Technology in Computer Science | University of Petroleum and Energy Studies (UPES) | Dehradun **Expected Apr 2028**

ACHIEVEMENTS & CERTIFICATIONS

- Build With Bharat 2.0 - National-Level Hackathon, NIT Delhi | PPT Submission Round Participant (Sep 2026)
- OCI AI Foundations Associate - Oracle
- Critical Mass: The Ultimate AI Bot-Making Competition - IIT Patna
- ProtoRush Coding Challenge - UPES ACM & Dell Technologies
- International Astronomy & Space Olympiad 2026
- Project Viksit Bharat 2026
